

About Us

Hudson Energy is an innovative business-to-business supplier of electricity, natural gas, and green energy product options. We help you do better business - every step of the way.

Hudson Energy Services, LLC was founded in 2002 as a way to offer commercial customers better energy options. We specialize in providing customized index and fixed price energy products tailored to the needs of individual businesses. Large and small business owners look to us for stability and predictability to help them control their energy costs and budget one of their most significant business expenses more effectively. We understand the needs of large energy users, the products you expect, as well as the proactive service you require.

Hudson Energy is a subsidiary of Just Energy Group Inc., a publicly traded company (NYSE:JE and TSX:JE) serving nearly 2 million customers across North America and the UK.

Why Choose Us

Our customers come first. The Hudson Energy support team is made up of people who understand the industry and are committed to help you in every way. Hudson Energy is here for you.

-  **Dynamic Pricing**
Our wholesale buying power, expert industry experience and strong supplier relations ensure that we are able to offer competitive plans at aggressive rates.
-  **Trusted Energy Advisors**
Our team of experienced industry specialists will work with you to create an energy solution that meets all of your business' needs from budget to roll-out and support.
-  **Environmentally Focused**
As an industry leader, it's our responsibility to explore green energy product options and offer affordable ways for businesses to reduce their environmental impact. We can provide you with simple, economical ways to help you reduce your environmental footprint.
-  **Integrated Energy Strategies**
We offer a full range of services from energy control to energy audits.
All developed to help you monitor and manage energy consumption for your business.

Lasting Power: Trusted by 2 Million Customers Across 14 Markets

We bring energy options to customers on a global scale, thanks to a vast network of sales partners and support offices across North America and Europe.
