

Procurement Management Sustainability

17 out of 21 commercial accounts spend too much on electric and natural gas. Navigate Power helps customers get more out of their energy budget.

Energy expertise and experience.
Delivered.

Navigate Power manages over 50,000 commercial energy accounts and over \$1 billion in client energy spend.

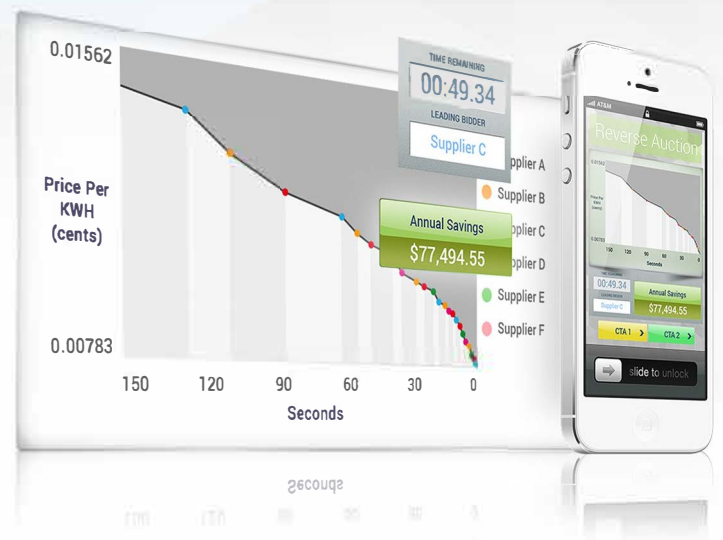

To get the most from your energy budget, you need a partner. A partner with deep industry knowledge, meaningful insights, and the broadest range of capabilities.

We help commercial properties reduce their energy footprint and get more out of their electric and natural gas budgets. From reducing your energy footprint to energy procurement, management, and bill auditing, Navigate Power can be your turnkey support team. Navigate Power delivers expert energy savings, efficiency, and management.

Energy Procurement

Navigate Power has direct relationships with over forty of the nation's leading retail electric and natural gas suppliers. Our energy consultants can help you better understand the strengths of each supplier, compare energy service agreements, and choose the best plan and product for your business.

Navigate Power developed the Navigate Exchange (NEX), a procurement platform that gives commercial clients direct access to the nation's leading electric and natural gas suppliers. It's the easiest and most transparent way to source competitive energy products.

For property owners and managers interested in reducing their energy footprint, but have a limited budget we have sourced proven energy solutions that provide savings of 10% to 20% or more. Energy efficiency and renewable energy projects have significant savings and require no out-of-pocket costs.

Navigate Power & Verde Solutions can help you with:

- Reduction strategies: LED lighting, HVAC, building controls
- Production strategies: solar, CHP, wind
- Utility rebates and tax incentives processing
- Innovative financing options
- Standard 5 YEAR Warranty

Utility Invoice Auditing

Over 80% of organizations are being overcharged on their utility bills due to miscalculations and discrepancies billed by their utility and service providers. Discrepancies and errors in rate codes, taxes, and usage can lead to you over-paying tens-of-thousands of dollars.

We can help you find and retrieve real dollars.

Navigate Power can help your business capture refundable money for the following utilities:

- Electricity
- Natural Gas
- Water & Sewer
- Waste Management
- Telecommunications & Cellular
- Internet & Data
