Procurement

Navigate Power is a national electricity and natural gas firm that provides clients the best pricing opportunities available.

- Security-** We provide price protection & budgeting certainty for clients.
- Savings-** Our proprietary technology allows access to 105+ national suppliers to lock in the best price.
- Service-** Develop custom solutions and contracts that best fit our clients' needs.

Reduction-Production-Storage

Verde Solutions provides innovative solutions for clients that want to improve energy efficiency and save money.

- Reduction-** Various technologies including LED lighting, HVACR and controls create efficiencies and cost savings.
- Production-** On-site energy generation via solar, wind and micro-turbines allows companies to gain independence from the grid.
- Storage-** Integrated battery systems provide energy during outages and help to shave peak demand.
