

## Why Energy Savings as a Service is the Smart Choice to Achieve Cost-Effective Energy Efficiency

### It Unlocks the True Potential of Energy Efficiency

Pay less for energy while upgrading lighting, HVAC, water, solar and more.

Hedge against utility price and equipment budget surprises.

Increase building value, while improving productivity and comfort.

### Solves the Most Common Energy Efficiency Challenges

Don't have the budget?  
Competing project priorities?  
Too busy to upgrade?

#### **SOLVED!**

ESaaS is a complete done-for-you solution requiring zero out-of-pocket investment, so your budget, schedule, and other projects are never impacted.

### No Debt, No Investment: Just SAVINGS!

Pay nothing out-of-pocket.

It's not a loan, so there is no debt.

Preserves your capital to use wherever else you need it most.

Guaranteed performance and maintenance at zero cost to you.

The leading energy solution platform in the market today - 100% focused on helping companies achieve their energy efficiency goals.
